Prawie trzy dekady doświadczenia w produkcji oświetlenia – witaj w świecie Candellux Lighting... zawsze w dobrym świetle.

Almost three decades of manufacturing experience in lighting - welcome to Candellux Lighting world... always in the good light.

Elementy drewniane opraw oświetleniowych produkowane są w naszej własnej stolarni. Do tego celu używamy polskiego drewna, a jego pochodzenie weryfikujemy.

Wooden elements of each lamp are produced in our own carpentry. For this purpose we use high quality Polish wood. Wood origin is always carefully verified.

Dbamy o jakość naszych produktów, jednocześnie optymalizując koszty ich wytwarzania. Używamy maszyn, ale na niektórych etapach ręczny montaż jest dla nas lepszym rozwiązaniem.

We especially take care about quality of the product, however at the same time we optimize the production costs. Manufacture of our products is mainly maintained by automatic machine processes, but at some stages of production, manual production seems to be better solution for us.

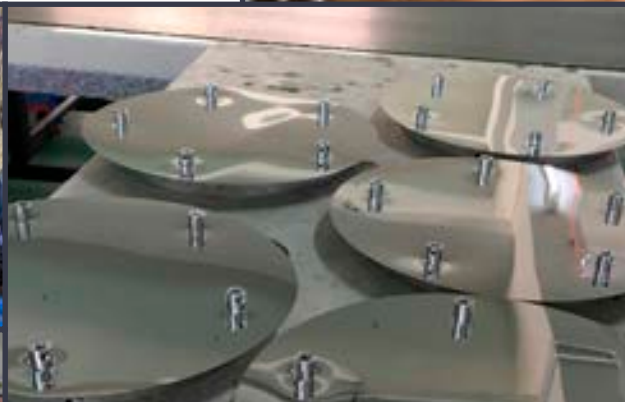

Jesteśmy elastyczni. Wypracowane metody działania pozwalają nam na powtarzalną produkcję dużych ilości, jak i krótkich serii produktów.

We are flexible. Developed over the years company organization, allows us to produce large quantities of the product as well as only the short product series.

Sprawnie obsługujemy Klientów zarówno na rynku polskim, jak i za granicą. Realizujemy kilkadziesiąt tysięcy wysyłek rocznie. Większość z nich dociera do Klienta w 48h.

We put high priority to proper Customer Service for all of our Clients. We make tens of thousands shipments a year, most of them reach the Customer in 48h.

Nowoczesne Centrum Logistyczne w Wołominie z magazynem wysokiego składowania, dysponuje ponad 3500 miejsc paletowych, a wraz z magazynami pomocniczymi – ponad 5000.

Modern Logistic Center in Wołomin, Poland, with high-bay warehouse, has capacity for more than 3500 pallets, yet with the auxiliary warehouses - more than 5000 pallets.

Zawsze w dobrym świetle!

The image shows three pendant lamps hanging in a room with a light-colored stone wall and framed photographs. The lamps are dome-shaped and feature a 'patch' design with metallic, riveted details. One lamp is light grey with gold patches, another is light grey with black patches, and the third is black with silver patches. They are suspended by black cords from a central black circular ceiling mount. In the foreground, a white geometric coffee table holds two white ceramic vases. A modern chair is partially visible on the right.

The image displays four distinct models of 'sfinks' pendant lamps against a rustic stone wall. The lamps are made of copper-colored metal with perforated shades. Model 1 is a sphere, model 2 is a dome, model 3 is a sphere with a different perforation pattern, and model 4 is a tall, narrow dome. They are suspended by thin copper rods from circular ceiling plates. In the foreground, a brown sofa and a round coffee table are visible, and a yellow armchair is partially seen on the right.
